The VIP group of companies now have our very own World Champion, Manchester Lightweight Terry Flanagan became WBO champ last June.

Pg 4

## THE VIP RANGE OF PRODUCTS

[www.vip-ltd.co.uk](http://www.vip-ltd.co.uk)

## 30 YEARS FOR VIP 2015 SIGNIFIED A LANDMARK YEAR FOR THE COMPANY

As we close the door on 2015 and move into 2016, we leave behind a significant year for the company as we celebrated 30 years in the industry.

We have continually outgrown premises and are now at our fourth address in a specifically designed building.

Having started from just a small office, VIP has

developed into a major supplier to the building, process and plumbing industries.

We continue to grow, develop and maintain the quality of service & products to the ever growing industry sectors whilst maintaining our BS EN ISO 9001 accreditation and our investors in people endorsement.

## WRAS APPROVED RUBBER BELLOWS AN INDUSTRY FIRST FOR VIP GOING INTO 2016.

There was a big announcement late last year as we received WRAS approval for our range of tied and untied EPDM rubber bellows. We believe this is an industry first as many previous units have been WRAS approved, but only specifically for the rubber itself, we now offer WRAS approval for the complete units which compliments our already existing WRAS stainless steel range of flexibles & expansion joints.

With the importance of WRAS continuing to grow within the industry, many users and designers are now insisting upon WRAS approvals.

We feel this is a real testament to us as a company as we continue to strive with extensive research to ensure many of our products reach the high standards of WRAS.

## VIP JOIN LUCKINS WITH OUR OWN BRANDED RANGE OF PRODUCTS

THE VIP RANGE HAVE NOW BEEN ADDED TO THE LUCKINS LIVE DATABASE, A TOOL FOR ESTIMATORS & DESIGNERS IN THE BUILDING SERVICES DIVISION.

We joined Luckins last December as a way of VIP assisting estimators and designers with project planning and quoting. Luckins Live is the most comprehensive,

accurate and up-to-date source of supplier products and trade price information for the UK building service industry. By using Luckins you can search for information

listed in  
**LUCKINS**  
DATABASE

on our core VIP products including datasheets. Please get in touch with the sales office or by emailing [marketing@vip-ltd.co.uk](mailto:marketing@vip-ltd.co.uk) for more information.

# AN INSIGHT INTO ALL THINGS PROCESS

The process valve division of VIP run by company director Sean Morris, recently completed the supply of two valve & instrumentation packages, totalling over a quarter of a million pounds with a further order secured to supply pneumatic actuated valves to a major European chemical plant.

Over the years we have supplied to major chemical, pharmaceutical, brewery and petrochemical companies. With product quality, pricing and service we have continued to grow and develop our reliability, along with leading manufacturers we continue to strive to develop our portfolio of process equipment.

## EMMETI EVENING

### EMMETI GERPEX INTRODUCTION

Just before the Christmas chaos, VIP and Emmeti held an evening in Manchester to introduce the new Gerpex range of 'Multilayer Pipe' as an alternative to copper. The press fittings to suit have many advantages, we would be happy to arrange seminars for any interested companies please contact [jshannon@vip-ltd.co.uk](mailto:jshannon@vip-ltd.co.uk) for more details.

## KEEPING IT CLEAN & SIMPLE

### THE VIP FLUSHING BYPASS MANIFOLD FLEXIBLE IN CONFIGURATION.

Users of the new 3 valve flushing bypass manifold are reaping the benefits of a new more condensed unit. Being designed to be installed on HVAC terminal units such as fancoils, heat exchangers and so on, the impressive solution is its flexibility in its configuration, it allows simplified terminal unit maintenance, permitting its dismantling without having to empty the entire system. The original design had 80mm centres, this has now been complemented with the addition of a 40mm centre unit which was recently launched.

By closing the flow & return valves and by opening the by-pass, the terminal unit is essentially isolated from the system, now possible to drain and disconnect it for maintenance.

By closing the by-pass and the return valve it is possible to perform a "Forward Flushing" of the strainer. By closing the by-pass and flow valve (and with clean fluid in the system) it is also possible to perform a "Back Flushing" of the system, by forcing the flow of the fluid back into the terminal unit before it is drained through the strainer.

The key behind the success of the VIP valve is the simplicity with maintenance and most importantly the cost savings and lower risk of leaking.

The unit has o ring sealed union ends allowing different configurations to be easily achieved. This also allows for an easier routine cleaning of the terminal unit independently from the line's regular working conditions.

# COMPETITION TIME...

4 TICKETS TO SEE  
MANCHESTER UNITED PLAY

## QUESTION:

NAME ONE BENEFIT OF THE  
FLUSHING BYPASS MANIFOLD.

Please email your answers to [marketing@vip-ltd.co.uk](mailto:marketing@vip-ltd.co.uk)

# THE WAREHOUSE

THE VIP STORES, PACKED WITH  
STOCK AND READY TO GO

The warehouse is located at VIP House our 20,000 sq.ft building in Astley. We offer same day service around the North West where possible but also offer a next day service

nationally on a palletised network as well as our own branded vans. We appreciate how urgent our customers require stock and we do our utmost to assist this. We thrive in providing a service our customers can rely on and maintain our good name for service gained from the previous 30 years.

# INSIDE THE REST OF VIP...

2015 was a special year for VIP as we got our first ever World Champion in Terry Flanagan who beat Jose Zepeda to be crowned WBO lightweight champion in a very special night in Manchester, Flanagan has since defended twice and is now recongised as the worlds best. VIP also manage top UK talents Josh Warrington, Brian Rose, Tommy Coyle, Isaac Lowe, Luke Blacklege

This issue we take a look into the VIP group of companies and a few things you may not have known. MD Stephen Wood manages over 70 professional boxers and also puts on boxing shows around the North West, we show all the VIP Promotion shows on [www.vipboxing.tv](http://www.vipboxing.tv) which is a youtube channel designated to VIP Boxing and can be shown around the world.

[www.vipboxing.tv](http://www.vipboxing.tv)

and Gary Sykes all of which look to be having a huge year in 2016. VIP also have a long list of top prospects who are all aiming to make a name in the sport. VIP recently signed Commonwealth gold medallist Scott Fitzgerald.

[WWW.VIPBE.CO.UK](http://WWW.VIPBE.CO.UK)

Part of the VIP group of companies is VIPBE (Vital Impact Protection Boxing Equipment) We offer a full range of boxing equipment for both Professionals and beginners. The equipmenmt is designed by former professional champion Jamie Moore. Josh Warrington seen above is wearing the Venom II gloves in his latest fight shown live on Sky.
