SAFETY VALVE SETTING

At VIP we have our own in house testing rig where we can set safety valves.

We have qualified testers on site, therefore we can offer a sameday dispatch with certification when requested.

ACTUATION PACKAGES

Facilities available to assemble & test within our workshop.

ELECTRICALLY OPERATED

We can supply electric actuators in on/off and failsafe versions, modulating and failsafe options using battery back up or spring return, quarter and multi turn options, safe area or ATEX models available.

PNEUMATICALLY OPERATED

We offer 90° quarter turn pneumatic actuators in both single & double acting versions along with linear control diaphragm units.
